

**CALIFORNIA SCIENCE & ENGINEERING FAIR  
2019 PROJECT SUMMARY**

<b>Name(s)</b>  Crystal Neilsen	<b>Project Number</b>  <b>J2114</b>
<b>Project Title</b>  Rethink Your Drink	
<p style="text-align: center;"><b>Abstract</b></p> <p><b>Objectives</b> The objective of my project is to see/show the affects of different types of drinks on human teeth.</p> <p><b>Methods</b> The materials I used in my project were 6 different types of drinks, human teeth, and clear jars. I put about 5 ounces of each the liquids and one tooth in the jar. Over the course of 5 days I made observations and took a picture of each tooth, then analyzed the data.</p> <p><b>Results</b> At the end of the five days, the Coca-Cola affected the tooth the most. Then, Gatorade, Dutch Brothers, Mountain Dew, Starbucks Tea, and then Starbucks Coffee.</p> <p><b>Conclusions</b> Out of the six drinks, Coca-Cola is the worst for your dental hygiene.</p>	
<b>Summary Statement</b>  In my project, I showed what the affect of the six drinks, and Coca-Cola affected the tooth the most.	
<b>Help Received</b>  I revived minimal help from teachers on the editing and revising of my project.
