

**CALIFORNIA STATE SCIENCE FAIR  
2009 PROJECT SUMMARY**

<b>Name(s)</b> Sean M. Ward	<b>Project Number</b> <b>J0625</b>
<b>Project Title</b> <b>Do All Witnesses Remember the Same Details at a Crime Scene?</b>	
<b>Abstract</b> <b>Objectives/Goals</b> To find if witnesses are useful during an actual crime scene. <b>Methods/Materials</b> You will need a journal, witnesses, set-up scenes, and a camera(optional). <b>Results</b> The responses were very accurate and crazy at the same time, some responses were exact and some were off. <b>Conclusions/Discussion</b> At the end of the project, I concluded that eye witnesses are not always the best witnesses.	
<b>Summary Statement</b> After setting up a scene, we asked the witnesses what they saw during an event.	
<b>Help Received</b> Mother helped set up scenes;
