

CALIFORNIA STATE SCIENCE FAIR
2015 PROJECT SUMMARY

| | |
|---|------------------------------------|
| Name(s) Devansh Vaid; Katia Williams | Project Number 35625 |
| Project Title Simple Calculus: The Transformation of an Oxymoron into a Reality | |
| <p style="text-align: center;">Abstract</p> <p>Objectives/Goals Our objective was to invent a Calculus notation that is directly influenced by the context of common problems and graphical representations.</p> <p>Methods/Materials The materials we used included textbooks, articles, encyclopedias, pencils, and papers.</p> <p>Results A successful notation was created that received polarizing reviews from professionals and amateurs alike.</p> <p>Conclusions/Discussion This project will definitely be expanded upon and improved, but for a first step, it was a success.</p> | |
| Summary Statement Our project is about making Calculus simpler and more applicable and understandable for the layman. | |
| Help Received Our mathematics teacher taught us the Calculus concepts, with their implementations, that we needed to be successful for this project. | |
