

**CALIFORNIA STATE SCIENCE FAIR
2015 PROJECT SUMMARY**

Name(s) Talia Arauzo; Jennifer Lee; Emily Zhang		Project Number 35626
Project Title Improving Recycling Methods through the Usage of Robotic Devices		
Objectives/Goals Submitted by Partner	Abstract	
Summary Statement My project, constructed out of PVC pipes and an Arduino kit, compartmentalizes four different items, while focusing on improving recycling methods.		
Help Received Mentor taught us how to use Arduino; Mentor guided us in the design process; Father helped us use large machinery; Ace Hardware gave us a donation to purchase supplies
