

## CALIFORNIA STATE SCIENCE FAIR 2016 PROJECT SUMMARY

Name(s)	Project Number
Andrew Tong Li; Robert Yang; Matt Zhou	
	36565
Project Title	
The Effects of Different Transition Metal Micro	nutriants in Carbon
Firstion and Silica Intaka of T. ngoudanana Dia	tom
Fixation and Silica Intake of T. pseudonana Dia	
Objectives/Goals Abstract	$( \ )^{*}$
Submitted by Partner	$\cup$ () )

Summary Statement	
We evaluated the valuation of using metals such as iron, copper, and zin	nc, to bolster carbon fixation and
silica intake of diatoms.	
Help Received	
Used lab equipment at our high school, Lynbrook High School under	the supervision of Kathleen Lois
and Lester Leung.	une supervision of Kaundell Lola
und Dester Doung.
